

Homework 7

Due Wednesday, November 15

1. (a) Problem 16 to Chap. 10 of the textbook.
(b) For the same system as in part (a), find the frequency of **small** oscillations (by linearizing the system near $\phi = 0$) and verify that the same value is obtained in the appropriate limit from your result in part (a).
2. Problem 11 to Chap. 12 of the textbook.
